

Samsung A7 Tablet + Kids Case

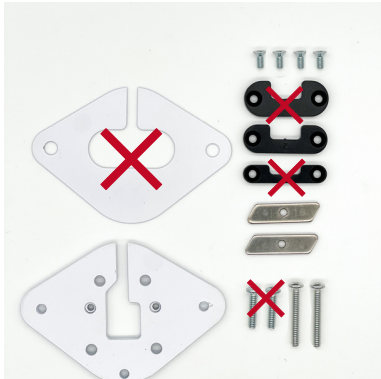

Installation Guide

Kit Parts

Part #165-00208

Part #M0015

✗ • parts not used for this install

Part #M0057

Step-by-Step Instructions:

STEP 01

Clean the back of the case with alcohol wipe.

STEP 02

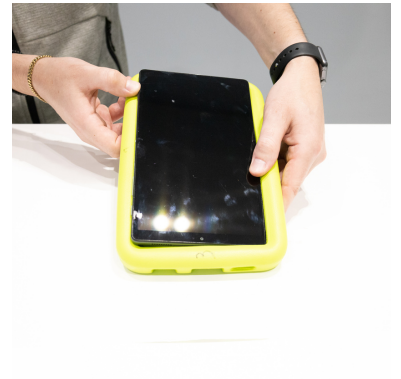

Make sure tablet is not installed into the case yet. If it is, pull it out. Remove VHB protective layer.

STEP 03

Apply puck to back of case. Center best as possible. Apply pressure for 10 seconds. Place pressure on the back side of the case to ensure enough pressure is put directly on the center plastic of the case. This will ensure full adhesion.

STEP 04

Insert tablet into case.

Step-by-Step Instructions:

STEP 05

Attach Part #M0015 to Freedom Micro.

STEP 06

Insert the Long Mounting Tab Screws into the holes on either side of the baseplate.

STEP 07

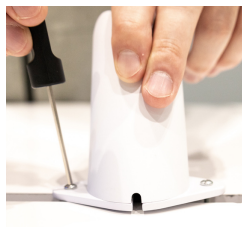

Rotate the mounting tabs onto the mounting screws until flush with bottom of screw. Make sure the DOTTED side of the mounting tabs are facing DOWN.

STEP 08

Align the mounting tabs and press them into the track.

STEP 09

Hold the position steady with one hand. With your other hand use the Double-Sided System Tool to turn the screws to move the mounting tabs into position. Tighten screws to lock position to the fixture.

STEP 10

Slide the tether attachment into the puck to secure the Freedom Micro to the Kids case.

Step-by-Step Instructions:

STEP 11

Finished Product.
