# DISPOSABLE WATCH SENSOR

FREEDOM CORE II™ INSTALLATION GUIDE   MTI
**1** Clean the device with an alcohol wipe and let dry.

2 Peel VHB on the watch sensor.

3 Place on the back of the device with the wire pointing off of the top of the device.

4 Press down for 10 seconds. Refer to AT&T merchandising guidelines for final fixture integration.

5 If using Freedom Core II™ insert the 6-pin Molex end of the sensor into the Freedom Core II™ Alarm Module until it clicks.
